Get ready to just make yourself comfortable... let your hands lie loosely in your lap... or at your side if that's easier... just be comfortable and relax your entire body as much as you are able to... now I want you to take a deep breath and hold it for a minute before exhaling slowly... just letting your whole body relax as you do ... and I want you to just keep listening restfully to the sound of my voice... and as you're listening to the sound of my voice, I want you to center for a moment on your breathing... breathing slowly and steady and evenly... and as you exhale each time, just letting your whole body relax more and more... so that you gradually find yourself feeling like your whole body was settling further and further into the chair with each breath you breathe...

and just the thought of breathing and unwinding makes you feel as though you're sinking down... 5 Sinking deeper.... 4... and each breath makes you feel more at ease.... 3 and with every breath you feel yourself going deeper and deeper...

more relaxed.... 2.... down once more..... breathing softly... Releasing.... and 1....
Completely relaxed.....

And as you continue to drift it might be reassuring to realize that there's a part of your brain that recognizes how to learn even without knowing that it's learning which might not make sense to your conscious mind and that's o.k. Simply relax and enjoy your new awareness.
